1. Find the Largest Element

numbers = [10, 5, 25, 8, 15]

2. Find the Smallest Element

numbers = [10, 5, 25, 8, 15]

3. Find Sum of All Elements

numbers = [1, 2, 3, 4, 5]

4. Find Average of Elements

numbers = [10, 20, 30, 40, 50]

5. Reverse a List Without Using `reverse()`

numbers = [1, 2, 3, 4, 5]

Logic-Based List Questions

1. Remove Duplicates

numbers = [1, 2, 2, 3, 4, 4, 5]

2. Find Second Largest Number

numbers = [10, 20, 50, 40, 30]

3. Separate Even and Odd Numbers

numbers = [1, 2, 3, 4, 5, 6]

4. Find Common Elements Between Two Lists

list1 = [1, 2, 3, 4, 5]
list2 = [3, 4, 5, 6, 7]

5. Merge Two Lists Without Duplicates

list1 = [1, 2, 3]
list2 = [3, 4, 5]

Nested List Questions

1. Sum of All Elements in a Matrix

```
matrix = [
    [1, 2, 3],
    [4, 5, 6],
    [7, 8, 9]
]
```

2. Find Largest Element in Matrix

```
matrix = [
    [1, 2, 3],
    [10, 5, 6],
    [7, 8, 9]
]
```
